#### 2. SUMMARY OF BUSINESS OPERATIONS OF THE SAVA GROUP AND SAVA D.D. IN THE PERIOD JANUARY-SEPTEMBER 2012

Confronted with further falls in stock exchange prices and economic setbacks, the companies of the Sava Group and Sava d.d. continued to implement the restructuring strategy for Sava as set out until 2014. Owing to a high level of financial liabilities, the principal activities primarily concentrated on the measures that lead to deleveraging the Group and Sava d.d., at which it was particularly dealt with further increases in cost efficiency, improvements in operative business and regulating the relations with the banks.

At the end of this September, the companies of the Sava Group made sales revenues of €149.4 million, which was by 1% lower than planned, but at the same time by 1% better than last year and that despite this year's sale of the major part of Real Estate.

The EBIT of Sava Group companies amounted to €9.2 million at the end of third quarter, which was by 44% better than in the same period last year or by 3.3% better with regard to the comparable Group composition in 2011.

The operating result of the parent company Sava d.d. improved too, which was mainly due to reducing the costs by 35% with regard to the same period last year. The generated operating loss in the amount of €1.9 million was by 17% lower with regard to the same period last year, or by 16% better with regard to the business plan of Sava d.d.

The net loss of Sava d.d. totalled €11.3 million at the end of third quarter; accordingly, the net operating profit of the Sava Group was negative too and totalled €11.5 million.

The deviation from the business plan was mainly negatively influenced by additional impairments of financial investments of Sava d.d. in the amount of €3.9 million, by a shortfall of the planned dividend payment by the banking sector, a decrease in the corporate income tax rate and, reducing the deferred tax receivables in this connection, as well as a lag in the sale of a part of Sava d.d.'s real property, being rescheduled to the last quarter of this year.

The book value of the Sava share amounted to €76.7 at the end of September and it significantly surpasses the market values, which considering the negative movements and low liquidity of the Slovene capital market are formed in the stock exchange. In the first nine months of this year, the stock exchange price of the Sava share moved between €3.2 and €13.0.

The share of capital in the liabilities structure of Sava d.d. amounted to 19.5% at the end of September, while in the liabilities structure of the Sava Group it had a 26.8% share. Total financial liabilities of Sava d.d. achieved the value of €296.5, while total financial liabilities of the Sava Group amounted to €361.5 million at the end of this third guarter.

The major achievement of this financial year is a successful and efficient divestment of the assets of Sava d.d. In March, Sava d.d. sold a 14.56% equity holding in Terme Maribor, in June it sold Investicijsko podjetje d.o.o., Ljubljana (the former Sava IP d.o.o.), the then mainstay of its Real Estate business. At the end of October significantly before the strategically planned terms - a contract for selling the entire Rubber Manufacturing was signed. The sale of the Energy Management companies is in progress and is expected to be finalised before the end of this year.

The result at the end of this year will be affected by impairing the financial investment of Sava d.d. in Abanka Vipa d.d., to be carried out on the basis of an evaluation. The sale of Rubber Manufacturing companies, which subject to fulfilment of suspensory conditions is expected to be completed by the end of this year, will substantially improve the operating result of Sava d.d., and combined with the effects of other disinvestments, the debts with the banking sector will be reduced by about €100 million. This will provide an extra platform for making an arrangement with the banks as to the reprogramming off inancial liabilities and enable further implementation of Sava's restructuring strategy.

At the end of September, the average price per share amounted to €4.8 and with regard to the end of 2011 it decreased by 59.8%. #### MOVEMENT OF THE SAVA SHARE

The range of value, in which the Sava share moved, reached its highest point at €13.0 and the lowest point at €3.2. #### 5.2 Business operations of the Sava Group

In nine months of this year, the business of both the Sava Group and the banks, in which Sava d.d. holds an equity stake, was affected by the exacting business environment. In Rubber Manufacturing with the Foreign Trade Network, the operating result was achieved as planned. In Tourism, the operating business is still being consolidated, which is why it slightly lagged behind last year's and planned operating result. Owing to the sale of division's mainstay, the operations of Real Estate shrunk. Investment Finance is just to close this year's largest planned disinvestment – the sale of Rubber Manufacturing\*, while the activities aiming at restructuring the finance sources are carried on.

In nine months of 2012, Sava Group companies generated sales revenues of €149.4 million, or 1% more than in the same period last year and 1% less than planned. A net loss totalled €11.5 million. The amount of the loss was greatly due to further impairments of financial investments and a shortfall of dividend income.

#### a) Business performance

#### SALES REVENUES

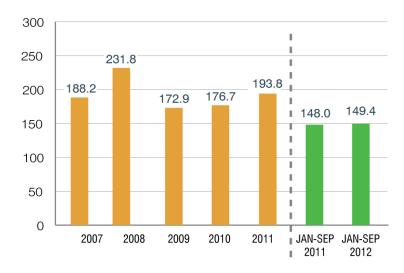

In the first nine months of 2012, total sales revenues amounted to €149.4 million, which was a 1% improvement on last year's result, but lagged 1% behind the planned sales revenues.

Based on the intense marketing activities, Rubber Manufacturing companies with the Foreign Trade Network generated sales revenues of €93.4 million in the first nine months of 2012, which was 3% better than in the same period last year and 1% less than planned. Sales revenues of Tourism amounted to €50.2 million, slightly lagging behind last year's result and were by 3% lower than planned. In the Real Estate companies the sales result was low as expected considering a further decline in purchasing power and a stricter policy for financing real estate projects. The revenues of Other Operations totalled €4.3 million and were higher than in the past year and also higher than planned.

In the revenues structure by Sava Group division, Rubber Manufacturing with the Foreign Trade Network had a 64% share, Tourism a 34% share, while the remaining 2% was generated in the sale by the companies of Other Operations. The sale in the foreign markets had a 55% share.

\* Until a complete finalisation of the sale procedure, Rubber Manufacturing companies will remain included in the Sava Group.

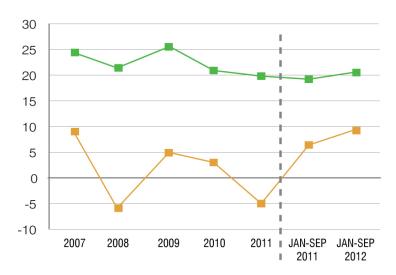

#### **OPERATING EXPENSES**

In the period dealt with, the operating expenses in the Sava Group companies were entirely subordinated to the Sava's restructuring strategy. They totalled €142.7 million and with regard to last year they reduced by 2%. #### FINANCIAL EXPENSES

With regard to the same period last year, the financial expenses in the amount of €17.7 million were by one half lower than in the same period last year, which was due to lower impairments of investments.

The structure of financial expenses whose significant part was made in the parent company Sava d.d. is, as follows:

- The level of **interest expenses** for the received loans, which amounted to €16.3 million, is the same as last year.
- Impairments of financial investments available for sale totalling €1.3 million were carried out on the basis of reducing the fair value of listed and unlisted securities, the equity sub-fund NFD 1 and in relation to a liability originating from the call option contract.
- Other financial expenses amounted to €0.1 million.

#### **NET FINANCIAL EXPENSES**

#### TAX

The net deferred tax of Sava Group companies was negative in the value of €3.7 million and it increases a pre-tax loss. A change in the deferred tax is mainly due to a recalculation of deferred tax receivables arising from impairments of financial investments to a lower, an 18% tax rate.

#### **NET LOSS**

In the nine months of 2012, the Sava Group made a net loss of €11.5 million. The amount of the loss is greatly due to further impairments of financial investments, shortfall of financial revenues from dividends and a recalculation – decreasing deferred tax receivables.

Net profit/loss in the Sava Group from 2007 to September 2012 - € in millions

#### b) Assets and liabilities structure

#### BALANCE SHEET TOTAL AND ASSETS AND LIABILITIES STRUCTURE

At 30/09/2012, the balance sheet total of the Sava Group amounted to €576.9 million and was by €34.3 million or 6% lower than at the end of 2011. A decrease in the balance sheet total is greatly due to the sale of the mainstay of Real Estate, Investicijsko podjetje d.o.o., Ljubljana (former Sava IP d.o.o., Ljubljana).

In the assets structure, financial investments had a 41% share, property, plant and equipment a 38% share; other assets (inventories, operating receivables, approved loans, deferred tax receivables) had a 21% share.

In the *liabilities structure*, capital had a 27% share, long-term debts a 12% share and short-term debts a 61% share.

47% of long-term assets of the Sava Group were financed with long-term sources, and 53% with short-term sources.

#### **ASSETS**

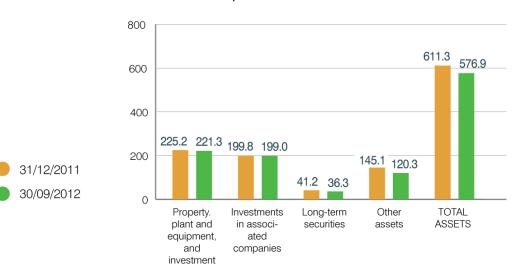

With regard to the end of 2011, the **most important changes** in the assets of the Sava Group included:

- The value of investments in non-current securities available for sale, which at 30/09/2012 totalled €36.3 million and with regard to the end of the past year it reduced by €4.8 million. This decrease resulted from the sale of certain financial investments and changes in the fair value of the available-for-sale securities.
- The value of deferred tax receivables, which at 30/09/2012 totalled €22.6 million and with regard to the end of the past year it reduced by €2.1 million. This decrease mainly resulted from a recalculation of the receivable to an 18% tax rate.
- As to their subject matter, the assets for sale, which at 31/12/2011 were shown in the amount of €32.3 million represented total assets of Investicijsko podjetje d.o.o. (former Sava IP d.o.o.). The sale transaction was carried out in June, which is why these assets are no longer included under the assets of Sava d.d.
- The value of operating and other receivables, which at 30/09/2012 totalled €35.7 million, was by €8.9 million higher than at the end of the previous year. The increase was partly due to a seasonal character of Rubber Manufacturing and Tourism business, and partly to the outstanding amounts from the sale of financial investments.

#### CAPITAL AND LIABILITIES

In the first nine months of 2012, the most important **changes in liabilities** included:

- Capital in the amount of €154.7 million represented 27% of total liabilities; its decrease with regard to the end of the past year was due to the loss totalling €11.5 million.
- Long-term debts totalled €71.8 million and in comparison with the end of the past year they were by €9.6 million lower. The decrease was due to a deleverage of Sava d.d. with the funds received in the sale of a share in Investicijsko podjetje, d.o.o.
- Short-term debts totalled €350.4 million and were by €13.6 million lower than at the end of the past year. The sale transaction of a share of Investicijsko podjetje d.o.o., Ljubljana was carried out in June, which is why as of 30/06/2012 its debts are no longer included under the debts of the Sava Group (liabilities for sale at 31/12/2011).
- The value of totally obtained long-term loans and short-term financial liabilities of the Sava Group companies totalled €361.5 million at 30/09/2012, which was by €9.9 million less than at the end of 2011.

#### 5.3 Business operations of Sava d.d.

Sava d.d. is the parent company of the Sava Group. Further plummeting of stock exchange prices and the aggravated economic environment, which significantly impacts the real and banking sector business, requested for extra impairments of financial investments of Sava d.d. in the amount of € 3.9 million, while a shortfall in business was also due to a non-realisation of payment of the planned bank dividends. The company thus generated a net loss of €11.3 million, which reduced the share of capital in total liabilities to 19.5%.

At the end of the year, the result will be negatively affected by impairing the financial investment in Abanka Vipa d.d. that will be carried out on the basis of an evaluation. Subject to meeting the suspensory conditions, the sale of Rubber Manufacturing companies will be realised by the end of this year; this will improve the operating results of Sava d.d. and significantly reduce indebtedness of the company with the banking sector.

In the same period last year, Sava d.d. received dividends of €11.2 million, their major part being paid out by Gorenjska Banka d.d.
- **Financial revenues from securities** were generated in the sale of securities available for sale, while financial revenues originate from the sale of a share in the subsidised company Investicijsko podjetje, d.o.o., Ljubljana.

#### **NET LOSS**

In nine months of 2012, Sava d.d. generated a net loss of €11.3 million, whereas the business plan for this period envisaged a profit of €7.5 million.
